## Summary

- Web and Mobile Developer with 2.6 years of industry experience.
- Proficient in building responsive and user-friendly web and mobile applications.
- Experienced with modern frameworks and technologies including **PHP, Laravel, React.js, and AngularJS**.
- Strong background in integrating RESTful APIs and third-party services.
- Passionate about clean code, best practices, and delivering efficient solutions.
- Quick learner, adaptable to new tools, frameworks, and team environments.
- Committed to contributing to innovative and impactful projects.

## Education

S.I.W.S College Wadala Mumbai BSC in Information Technology 2020-2023  
(BSC IT | CGPA **7.60**) (University of Mumbai)

## Professional Experience

### Junior Software Developer

TickleRight — June 2023 – Present

- Enhanced application performance by optimizing PHP and AngularJS components.
- Refactored JavaScript libraries, significantly improving frontend load speed and responsiveness.
- Identified and resolved critical bugs, ensuring smooth and reliable application functionality.
- Developed dynamic, responsive UI elements to improve user experience across devices.
- Streamlined the debugging and troubleshooting process, reducing issue resolution time by 30%.

## Skills

- **Frontend:** HTML, Javascript, React.js, AngularJS, Tailwind CSS, Bootstrap, ShadCN UI
- **Backend:** PHP, Laravel
- **API Integration:** RESTful APIs, third-party service integration
- **Version Control:** Git, GitHub
- **Tools & Platforms:** VS Code, Postman, Chrome DevTools
- **Development Practices:** Responsive Design, Cross-Browser Compatibility, Debugging & Optimization
- **Methodologies:** Agile, Scrum

## Projects

### **Disease Prediction System**

Technologies: Python, Machine Learning

- Developed a machine learning-based application to predict diseases from user-selected symptoms.
- Implemented predictive algorithms to analyze medical input data and provide likely condition results.
- Designed a user-friendly interface for smooth symptom input and accurate prediction display.

### **eCommerce Website – Payment Gateway Integration**

Technologies: PHP, JavaScript, PayPal, Razorpay

- Tested and integrated PayPal and Razorpay payment gateways into an eCommerce platform.
- Ensured secure and smooth transaction flow during checkout with sandbox and live testing.
- Worked on frontend/backend logic to handle order processing, transaction validation, and status updates.
